A Shattered Nervous System. FINALLY HEART TROUBLE.

EDWARD HARDY, the jolly manager of Sheppard Co's, great store at Braceville, Ill., writes: "I had never been sick a day in my life until in 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the great-

est blessing of my life." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and DR. MILES MEDICAL CO, Elkhart, Ind.

The Spanish Commissioners Flatly Refuse to Yield the Philippines.

NEARLY \$1,000,000 ASKED

Of America for Duties Alleged to Have Been Illegally Collected at Manila-Americans Are Accused of Wrongfully Imprisoning Spanish Troops in the Philippines.

Paris, Nov. 5.-The Spanish commissioners, in the course of a 2-hours' session of the peace conference yesterday, flatly refused to accept Monday's proposition by the Americans to take the entire Philippine group and to reimburse Spain for her "pacific" expenditures

This negative decision was expected. The Spanish commissioners had also a number of positive declarations which filled some 37 sheets of a typewritten presentment. In this statement the Spaniards held that the United States had no ultimate rights in the Philippine islands and could have none save by the consent of Spain in these negotiations and upon terms satisfactory to her. According to the Spanish contention in the formal statement, the United States entertained no thought of annexing the Philippines when the protocol was signed, or it would have been expressed in the protocol as clearly as the condi- in China, to eturn immediately to the tions regarding the cession of territory Japanese capitol. in the Antilles and the Orient. M. Cambon, before the signature of the protocol, received from Madrid - the T. C. Campbell, a Former Prominent presentment alleged-a cable message clearly setting forth that the maintennnce of Spain's authority over the Philippines should not be affected by the United States made at that time no protest or objection.

This dispatch to M. Cambon, as the Spaniards claimed, embodied also the he arrived from Ohio, where he has view that the United States had no been making speeches in behalf of Revalid basis for claims in the archipelago.

wrongful appropriation of public moneys saloonkeeper, died recently and left conbelonging to Spain by siezing the tariff siderable property. He also left some duties at Manila, and they formally delliabilities. Among them was a bill due the sum of nearly \$1,000,000.

On the same premises the United the charge is based. States was declared to have made and held as prisoners the Spanish troops at Manila in violation of international law, because done after the suspension of hostilities under the protocol.

and had thus contributed to the violence against Spain after the cessation of hos-

Claim a Precedent.

The Spanish presentment also cited the refusal of the Americans to consider the Cuban debt, on the ground that it was not sanctioned in the protocol, and demanded an adherence to this as a precedent in the discussion of the Philippines, regarding a cession of which the panish commissioners held the protocol to make no mention.

In support of these assertions, arguments and demands, the Spanish pre-

air for the woman who sits and gazes out over it. Pictures of a happy home, dreams of a

manly husband, beautiful castles to be built by the loving hands of mutual helpfulness and filled with healthy, happy children. Almost without exception these dreams might become realities if mothers would only teach their daughters the most common sense facts about their own physical make-up, and advise them how to protect themselves from the perils of the three critical periods of their lives—puberty or maturity, motherhood and the "turn of life." Women at these times suffer from irregularities and weaknesses which, if neglected, will develop into dangerous dis-

cases and make their whole lives wretched. The delicate organs that make wifehood The delicate organs that make wifehood and motherhood possible, cannot be neglected with impunity. If they are neglected the result is unhappy wifehood, and motherhood will be a menace of death. Dr. Pierce's Favorite Prescription is an unfailing specific for all diseases of these organs. It restores them to perfect health. It promotes a gularity of their special functions. It fits for wifehood and motherons. It fits for wifehood and mother-ood. It tones, invigorates and builds up the nerves that have been shattered by pain and suffering.

"For years my wife suffered from what the doctors called prolapsus of the uterus," writes Mr. Harry Chant, of 211 Haskell Street, Dallas, Texas. "She was nervous, had cold hands and feet, palpitation, headache, backache, constipation, a disagreeable drain, bearing-down pains and no appetite. She got so weak she could not get around. I am only a laborer, and was always in debt to the doctors, and all for no good, as none of them did her any good. She began taking Br Pierce's Favorite Prescription and it seemed to work like a charm. She has taken about thirteen bottles and is to-day as stout and healthy as any woman in the United States."

sentment invokes Spain's record in the correspondence by mail and telegraph, though it is not known whether the Spaniards produced the message said to have been sent from Madrid to M. Cambon, at the time the protocol was signed, in which it was affirmed Spain reserved her Philippine sovereignity.

The presentment was read by interpreter Ferguson, being rendered from the Spanish, in which it was written, into English. At the close of the reading the Americans said they wished to have the Spanish statement re-rendered into written English for more careful consideration and an adjournment was taken to Tuesday.

Senator Foraker's Views.

Pittsburg, Nov. 5.-Senator Foraker in a speech here last evening, speaking of the Philippines, said: "If we keep anything at all, we ought to keep the whole, rather than simply a part. It would require a greater army and a greater navy to defend a coaling station or a single island than it would to defend the whole group. For that reason I think we ought to keep the whole of them; and I am speaking upon the theory that we will, because that demand has been made by the American commissioners by the direction and with the approval of the administration at Washington."

SMALLPOX AT GIBERA

More Than Half the Population Suffering From the Disease.

RED CROSS OPPORTUNITY

Colonel Ray's Plain Talk to General Perez-Warned Against Keeping His Men Armed in American Territory. Insurgents Caught Stealing Will Be Treated as Bandits.

Woodson, medical inspector of the military department of Santiago, who arrived Wednesday on the United States cruiser Cincinnati, after visiting Holguin, Gibara, Baracoa, Sagua de Tanamo and Guantanamo, reports that on his arrival at Gibara with Colonel Hood's regiment, he discovered more than half the population suffering from The board of control of the Joint Traffic smallpox. There were also many cases association at a meeting in New York has of typhoid and disentery. He went im- some shading of quotations, particularly mediately to work and systematically isolated the houses, insisting on the regiment (the Second immunes) being encamped in a healthful location near

Every effort will be made to prevent the American and Spanish soldiers from fraternizing, as the Spaniards come from Holquin, about 37 miles from Gibara, and are liable to carry infection, The whole country between the two towns is thickly populated, and plague is scattered all along the route.

Medical supplies are badly needed there, as well as delicacies for convalescents, and the situation offers an excellent opening for the nurses and doctors of the Red Cross society.

General Wood will soon leave to make a personal inspection of the points visited by Dr. Woodson, despite the advice of his friends not to do so. The military governor is simply indefatigable in the line of duty. He will send Dr. Woodson back to Gibara on the steamer Reina de Los Angeles with five doctors and a large quantity of supplies. General Wood says he knew of the epidemic, which has been continous for three years, and had every man in Colonel Hood's regiment vaccinated. He believes that none will be stricken and that there is no cause for alarm.

Colonel Ray of the Third (immune) regiment reports a recent affray on the Santa Isabel plantation between two of However, he consented to allow Mr. his men, who were guarding cattle, and Hobson an opportunity to induce the some 15 insurgents. Three of the Cubans are believed to have been wounded, but their comrades carried them off.

Colonel Ray sent for Cuban Gene Perez and questioned him regarding the the men were of Perez's command, as they were all armed and wore Cuban cockades. He insisted that if Perez kept his men under arms he should also keep them in camp.

"I cannot understand your object," said Colonel Ray to Perez, "in keeping your men armed in American territory. Are they armed as against the Americans? There are no Spaniards in arms within 100 miles. What is the necessity of doing what can only lead to further trouble?"

General Perez said he would issue orders restraining his men from similar predatory attempts. Colonel Ray re-

BUSINESS OUTLOOK

Bradstreet's Comment on the Condition of Trade.

New York, Nov. 5.-Bradstreet's today says: Further quieting down of new business in iron and steel, the relapse into dullness, though at steady prices, of wheat, consequent upon the withdrawal of the excited foreign demand and some slight increase of quiet in general trade, chiefly at the south, as a result of the approach of the elections, are all features calling for special mention this week.

Among the more actively favorable features are the surprising steadiness displayed by most staple articles and the enlarged distribution of staple goods Santiago de Cuba, Nov. 5. - Dr. at many western and southern markets as the result of improved weather and removals of quarantines.

Confirmatory of the quite favorable reports as to general trade during October are the returns of bank clearings for that month, and scattered reports as to the increased business doing at many centers in that month as compared with one year ago.

New business in iron and steel has been lighter than for weeks past, and steel is reported. Export trade, however, is large and increasing.

Wheat has been duller but steady on uncertainty as to possible foreign political complications, offsetting a heavy gain in movement from producers. The current demand and output of flour has continued to equal and even exceed all previous records.

An encouraging feature is the continued active demand for domestic wool, largely at price concessions, with rather more reported doing in cheap makes of worsted.

Cotton has made another new low record on heavy crop movements, touching five cents for November delivery at New York, but improved demand for export, with the working of new print cloth restriction, have tended to firmness for the manufactured product.

HOBSON

Appears Before the Naval Board In Favor of Raising the Colon.

Washington, Nov. 5. - Constructor Hobson was before the naval bureau chiefs again yesterday, and spent two hours in an argument to convince the board of the advisability of allowing him to continue the work of wrecking the Spanish warships sunk off Santiago. Secretary Long had already concluded that the further prosecution of the work better cease, at least so far as it is conducted at government expense. board of bureau chiefs to reconsider their original determination.

The constructor was reinforced in his ion is in turn contrary to that of the The board contented itself with the reco ommendation to Assistant Secretary . GEORGE SLAGLE

Witness my hand and notorial seal. C. D. BILLINGS, Notary Public.

It is evident to everybody that putting men's names on the ballot over their protests is amed to benefit the old ring. But the people will not be deceived. This is an election when they will vote in the interest of themselves as taxpayers and citizens,

Wny should the total expenditures of

Jackson county for the fiscal year 1897 have been \$82,889 52, when Jennings county's total expenditures were only \$35,047.26 and Lawrence county's \$39 255.51? To administer affairs in Jackson county last year cost the taxpayers \$8,586 75 more than in both Jennings and Lawrence, the counties bordering Jackson east and west. Do the taxpayers believe for a minute that it need to cost more to administer the affairs in Jackson county than in both Lawrence and Jennings? Of course they do not, and will see to it that the ringsters are displaced and the management of county affairs put in the hands of honest and capable men.

THE Jackson county officers reported to the state bureau of statistics that the "extraordinary" expenditures of Jackson county for last year was \$42,492.90, Now just what "ex raordinary" expense into the county treasury do not know ordinary" expense for the same time was \$16,977.69, while in Jackson county for the same time it was \$42 492 40 Just think about this! Tae "extraordinary" expenses (whatever such expenses may mean) for last year in ting and Jackson county was \$25,514 41 more than in all the seven counties bordering Jackson. Who believes that this 50 cents a box, or malled by the manufac-

time for the people to depose the ring?

JOHN W. Hamacher is pledged to vote for John Burrell yet he is begging republicans to vote for him.

JAMES F. KEACH has told it over and over that he would vote for John Burrell and others on the ring ticket, yet he claims to be a candidate on another
